

ECOTIC

Date: 11.06.2019

ABOUT ECOTIC

Founded in 2006, ECOTIC is the first collective scheme of ICT producers and importers in Romania, aiming at bringing more efficiency and homogeneity to the fulfillment of their environmental responsibilities.

ECOTIC manages WEEE on behalf of 620 affiliated producers and importers

tons collected

FACTS & FIGURES 2007-2018

Evolution of the quantities of WEEE collected
(2007-2017)

ECOTIC'S PROJECTS

CMCI (Centrul Municipal de Colectare Iasi) is the first waste collection center at European Standards, located in Iasi.

The citizens can bring all types of recyclable waste at the center, for example: plastic, glass, paper, e-waste, etc.

ECOTIC'S PROJECTS

ECOTIC Caravan is a mobile exhibition of WEEE, where 10 disassembled equipment items are presented and displayed in show cases meant to draw attention to WEEE's recyclable and dangerous content.

In 2018, at EU Green Week, ECOTIC Caravan was awarded “Best Environment LIFE Project”, the only Romanian project to receive the award.

INTERNATIONAL INVOLVMENT

- ECOTIC is member of WEEE Forum
- Partener in the Urban Wins Project – European project which has developed and tested eco-innovative strategies for waste prevention and management

THANK YOU!
